DETAILED ACTION

Claim Rejections - 35 USC § 102

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 36, 38-42, 44-45, 48, 56 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Aktiebolaget (WO 93/16663).

Aktiebolaget teaches a fixture comprising a first cylindrical section 2 of a first diameter and second cylindrical section 1 of a second diameter being less than the first; both sections are provided with a screw thread profile; said implant further comprising a tapered connecting section formed by elements 22 between the first and second cylindrical sections; and a collar section 16.

Claims 36, 38-41 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Miller (2,382,019)

Referring to all embodiments, specifically figure 1, Miller teaches a fixture comprising a first cylindrical section 3 of a first diameter and second cylindrical section 4 of a second diameter being less than the first (note column 2, lines 13-21); both sections are provided with a screw thread profile; said implant further comprising a tapered connecting section between the first and second cylindrical sections; the head is a collar section 1. The device of Miller is a fixture that can be used in an orthopedic prosthesis. Further the preamble does not breath any life or meaning into the body of the claim and is given no weight.

Allowable Subject Matter

Claims 43, 46-47, 49-55, 57-70 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
